SPOTS

25

FEE:

US\$70,00

VISIT OBJECTIVES

- ▶ To present the TEMIS technology and how Agroince has used it to take key decisions from plant management and finally how to improve the company profitability.
- ▶ To present the artificial intelligence project for automated fresh fruit bunches quality assessment at palm oil mill.

TARGETED TO

Plantations and Palm oil mills owners, technical managers and process leaders, directors, engineers, and technicians of plantations and palm oil mills, researchers from research centers and universities, and international visitors.

SUBJECTS

TEMIS: Real-time measurement of Oil Extraction Rate (OER) by each fresh fruit bunches supplier.

AI FFB: Artificial intelligence to automate the fresh fruit bunches quality assessment.

SUMMARY

TEMIS empower you to take key decisions at manager level supported by real time and no human subjectivity. This system can give you the Oil Extraction Rate (OER) of all fresh fruit bunches shipments by each supplier and plantation allotment. TEMIS can gives the maximum reliability for your palm oil mill data.

AGENDA

- **06:00 A.M.** Departure from Bucaramanga (buses)
- **07:30 A.M.** We suggest having breakfast on the way.
- **10:00 A.M.** Arrival at the mill. Coffee-break
- **10:15 A.M.** Welcome. Presentation by management and board directors of the mill.
- **10:30 A.M.** TEMIS presentation: Real-time measurement of Oil Extraction Rate (OER) by each fresh fruit bunches supplier. (On auditorium)
- **10:50 A.M.** Q&A
- **11:00 A.M.** Presentation Artificial intelligence for automated fresh fruit bunches quality assessment. (On auditorium).
- **11:20 A.M.** Q&A and coffee break.
- **11:30 A.M.** Plant visit to observe these projects.
- **12:15 P.M.** Return to the auditorium for conclusions, questions, and end of the visit.
- **12:40 P.M.** Lunch.
- **13:45 P.M.** Return to Bucaramanga.
- **17:00 P.M.** Arrival to Bucaramanga.
